CAREER OBJECTIVE

Aspiring Python and Full-Stack Developer with hands-on experience building backend APIs and web applications using Python, FastAPI, PostgreSQL, JavaScript, HTML, CSS, and React. Passionate about problem-solving and continuously learning modern technologies to build real-world software solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript

Backend: FastAPI, RESTful APIs, JWT Authentication, SQLAlchemy ORM, Alembic

Databases: PostgreSQL, pgAdmin

Frontend Technologies: HTML5, CSS3, Bootstrap, React

Python Skills: Object-Oriented Programming (OOP), File Handling, Exception Handling, JSON Data Handling, Modules & Functions

Libraries / Frameworks: Tkinter, Pandas

Tools & Platforms: Git, GitHub, VS Code, PyCharm

INTERNSHIP

Internship — Omix IT Solutions | *Python, FastAPI, PostgreSQL*

- Built RESTful API endpoints using FastAPI and PostgreSQL for an email marketing platform.
- Implemented JWT-based authentication (signup/login) with bcrypt password hashing.
- Designed CRUD API endpoints for Contacts, Email Templates, and Campaigns, including a many-to-many relationship between Campaigns and Contacts.
- Integrated Gmail SMTP to enable real email sending through campaign endpoints.
- Used Git/GitHub for version control.

PROJECTS

Password Manager | *Python, Tkinter, JSON*

- Developed a desktop-based Password Manager to securely store and retrieve website credentials.
- Implemented strong random password generation using Python.
- Designed GUI using Tkinter for smooth user interaction.
- Stored structured credential data using JSON file handling.
- Integrated search functionality for retrieving saved passwords efficiently.

Pong Game | *Python*

- Developed a classic Pong game using Python with real-time paddle movement and ball collision logic.
- Implemented keyboard controls and basic game physics for interactive gameplay.

Snake Game | *Python (Turtle)*

- Built a classic Snake game using Python's Turtle graphics module.
- Implemented keyboard-based movement, random food generation, score tracking, and game-over conditions.

Pomodoro Timer App | *Python (Tkinter)*

- Developed a desktop-based Pomodoro Timer using Python and Tkinter.
- Implemented 30-minute focused work sessions with break timers and session completion alerts to improve productivity.

EDUCATIONAL QUALIFICATIONS

B.E. Computer Engineering

Shivajirao S. Jondhale College of Engineering

1st Year: 6.35 SGPI | 2nd Year: 7.08 SGPI | 3rd Year: 6.95 SGPI | 4th Year: 6.95 SGPI

HSC (12th)

Maharashtra State Board, Konkan — Percentage: 58.20%

SSC (10th)

Maharashtra State Board, Konkan — Percentage: 78.20%

CERTIFICATIONS & TRAINING

Python Programming – Complete Python Bootcamp (In Progress)

Udemy | Instructor: Dr. Angela Yu

LANGUAGES

English, Hindi, Marathi
